

A-justa-foot™

The A-JUSTA-FOOT is a multi-adjustable pedestal foot, ideal for industrial, commercial, workshop or food industry applications.

The special insert in the base helps to absorb vibration and means your machinery will stay exactly where you put it.

A-JUSTA-FOOT is available in a large variety of sizes.

Special requirements can often be produced.

To complement the A-JUSTA-FOOT range, inserts for round or square tube are available to fit light wall tube.

The inserts are designed especially so they can be turned down to fit heavier wall RHS.

SPECIFICATIONS ON INSIDE PAGES.

MATERIALS

Base - Glass reinforced Nylon - Black

Ball - Glass reinforced Nylon - Black

Pad - Synthetic Rubber Shore 73

Stud - Mild steel - Plated or Stainless Steel

Nut - Mild steel - Plated or Stainless Steel

Maximum adjustable angle - 20°

Tube ends - Glass reinforced Nylon with Threaded Metal insert.

HD A-justa-foot

The HD A-JUSTA-FOOT is a HEAVY DUTY ALL METAL multi adjustable pedestal foot ideal for chemical, industrial and food industry applications. They are extra heavy duty, making them ideal for very heavy machinery. The whole unit, foot, ball and stud are ALL METAL 304 stainless steel. The stainless steel feet are ideally suited to the food and chemical industry where washing down is necessary.

The HD A-justa-foot range is supplied with antislip pad and locknut.

A range of square and round inserts is available to complement the feet. These inserts are designed to be welded into the tube giving the optimum hygienic seal. As the feet and inserts are machined, special requirements in size, length and design are able to be produced.

HD = Hevy Duty A-justa-foot 121 Series (Stainless Steel)

HDP131 SAME AS ABOVE BUT WITH HOLES FOR BOLTDOWN WITH

60 base @10mm X 80mm centres and 90mm base @12mm x 60mm centres.

HDP is made out of 3.0mm 304 s/s plate and is laser cut to standard stock sizes, We also have the ability to custom laser cut feet to any size or shape depending on quantities. The stud is also 304 s/s which is able to rotate by using the spanner flats machined on the stud while the base stays stationary and once the adjustment is finished you use the half nut supplied to lock the height in position.

HD Foot 121/60/M16/90 with square HD111/51/M16

HD Foot 131/90/M16/190

HEAVY DUTY STAINLESS STEEL BOLT DOWN

Base 90 and 125 are available with Boltdown holes — Series HD131.

Boltdown holes in 90 have 60mm centres.

Boltdown holes in 125 have 90mm centres.

All boltdown holes are 11mm diameter.

Tube insert all metal, square and round

HDS A-justa-foot

HDS = Heavy Duty Slimline (Stainless Steel 304) Series

The HDS A-justa-foot is a HEAVY DUTY ALL METAL multi adjustable pedestal foot, ideal for the chemical, industrial and food industry applications. The complete unit including foot, ball and stud are 304 stainless steel making it perfect for wash down areas.

The HDS A-justa-foot range comes with a antislip pad and locknut.

HDA A-justa-foot

HDA231/90/M16/70

The HDA 221 Range is ALL STAINLESS STEEL with 10% angle adjustment and the usual height adjustment. This is a simpler design than our HD range. The HDA foot is available in 90mm base, 90 Boltdown, 125 base, or 125 boltdown base, all complete with antislip pad, with stud sizes M16, M20, M24 available in 2 lengths.

HDA 231 Bolt down series has 11mm holes with a 60mm centre for a 90 base, and 90mm centre for 121 base.

Materials:

Base: 304 stainless steel

Pad: Synthetic rubber shore 73

Stud: 304 stainless steel

Locknuts: 304 stainless steel
